

Anti-Harassment & Workplace Safety Policy

Document Ref: HR-POL-010 | Effective: October 2026 | Location: All TechV-Flash Offices & Remote

TechV-Flash is dedicated to fostering a work environment free of discrimination, harassment, intimidation, and hazards. This document lays out our zero-tolerance stance against workplace harassment, statutory compliance frameworks, and physical emergency procedures.

1. Prevention of Sexual Harassment (POSH)

1.1 Compliance Framework & POSH Mandate

In strict compliance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, TechV-Flash has constituted an Internal Committee (IC) to address all complaints of sexual harassment across in-person and digital platforms (Slack, Teams, Email, Offsite events).

1.2 Internal Committee (IC) Composition

The IC comprises a Presiding Officer (senior woman employee), two employee members dedicated to social causes or legal compliance, and one external member from an established NGO or legal association.

1.3 Complaint Submission & Inquiry Timeline

Any aggrieved person may submit a written complaint to posh@techv-flash.com within 3 months from the date of the incident (extendable up to an additional 3 months by the IC upon written justification). The inquiry must be completed within 90 days of complaint receipt, with the final inquiry report submitted to the CEO within 10 days of completion.

Strict Confidentiality: As per Section 16 of the POSH Act, identity details of the complainant, respondent, witnesses, and inquiry proceedings must remain confidential. Any employee leaking

inquiry information will face immediate termination.

1.4 POSH Inquiry Milestones & SLAs

Inquiry Phase	Statutory Action Required	Maximum Legal Timeline	Output Document Generated
Complaint Admission	IC shares copy of complaint with the Respondent for response.	Within 7 Working Days of receipt	Notice of Inquiry & Complaint Copy
Respondent Reply	Respondent submits written response and list of witnesses.	Within 10 Working Days of notice	Written Statement of Defense
Inquiry Proceedings	IC conducts cross-examination of parties and witness depositions.	Completed within 90 Days	Minutes of Meetings & Hearings Record
Final Report	IC submits final findings and recommended actions to CEO & HR.	Within 10 Days of completion	Final Inquiry Report & Recommendations

2. General Workplace Harassment & Anti-Bullying

2.1 Prohibited Conduct

Bullying, verbal abuse, cyber-bullying, public humiliation, derogatory jokes concerning caste, religion, nationality, or identity, and systematic isolation are strictly forbidden.

2.2 Escalation Process

Non-POSH interpersonal harassment complaints must be directed to hr-grievance@techv-flash.com or the direct department head. HR conducts an independent inquiry within 14 business days.

3. Occupational Health & Physical Workplace Safety

3.1 Emergency Evacuation & Drills

Bi-annual fire and evacuation drills are mandatory for all on-site personnel at Pune HQ. Emergency exit stairwells and fire extinguisher access points must remain clear of all obstructions at all times.

3.2 First Aid & Medical Emergencies

Designated first aid kits and certified first-responder employees are present on every floor. For serious medical emergencies on campus, security will contact emergency medical services and notify the emergency contact within 15 minutes.

4. Substance-Free Workplace & Weapons Prohibition

Prohibited Item / Activity	Workplace Rule	Disciplinary Consequence
Alcohol / Illegal Narcotics Consumption	Strictly prohibited on office premises, transport shuttles, and company events (except authorized VP-approved client entertainment).	Immediate suspension pending termination inquiry.
Firearms, Explosives, or Concealed Weapons	Zero tolerance on all company property and events without exception.	Instant termination and police handover.
Smoking / Vaping	Permitted only within designated outdoor smoking gazebos.	Written warning on 1st offense; fine of 1,00,000 INR on subsequent offenses.

5. Workplace Violence Prevention

5.1 Identifying Danger Signals

Employees are requested to report unusual or threatening behavior (e.g., verbal threats, stalking, physical chest-thumping, destroying company property) to the Security Admin. Early warnings prevent escalation.

5.2 Threat Evaluation Process

The safety committee immediately reviews threat reports. If physical harm is threatened, the access badge of the respondent will be deactivated, and they will be suspended pending verification.

5.3 Table of Physical Safety Hazards & Mitigation

Hazard Category	Examples of Risk Source	Mitigation Action	Inspection Frequency
Electrical Safety	Overloaded multi-sockets, frayed server wiring, exposed cable trays.	Auto-tripping RCCB breakers, cable management covers.	Monthly Admin Audit
Slip, Trip & Fall	Wet pantry floors, trailing networking cables, loose stair treads.	"Wet Floor" warning stands, immediate cord tape-downs.	Daily Janitorial Check
Fire / Combustion	Paper storage overload, pantry cooking equipment, server lithium batteries.	Auto smoke detectors, fire extinguishers, dedicated battery bins.	Quarterly Vendor Inspection

6. Mental Health Support & Wellbeing

6.1 Counseling & EAP Accessibility

TechV-Flash provides fully funded access to licensed counselors through our EAP partner. Consults are confidential, and identity details are never shared with HR or reporting managers.

6.2 Psychological Safety

We encourage managers to run inclusive, supportive meetings. High-pressure deadlines must be balanced with workload planning. Demeaning criticism or assigning blame in public forums is strictly prohibited.

7. Pandemic & Communicable Disease Safety

7.1 Health Screenings & Sanitation

During outbreak seasons (e.g., influenza, COVID-19), the company may implement thermal checkups at entry gates. Hand sanitizers are provided at all entry/exit points and meeting rooms.

7.2 Mandatory Quarantine Guidelines

Employees testing positive for a contagious infection must report it to HR and undergo mandatory home quarantine for the period recommended by medical officers. WFH will be enabled where health permits.

7.3 Table of Pandemic Action Level Protocols

Alert Risk Level	Office Attendance Cap	Sanitization Frequency	Mask / Testing Mandate
Level Green (Standard)	100% capacity (Default hybrid)	Standard daily routine cleaning	Voluntary
Level Yellow (Elevated cases)	50% capacity (Alternate days)	Twice daily sanitization of touchpoints	Masks mandatory in meeting rooms
Level Red (Local outbreak)	0% capacity (Mandatory fully remote)	Deep chemical sanitization weekly	Negative PCR required for essential visits

8. Ergonomic Safety & Workplace Hygiene

8.1 Air Quality & Filtration

Office air systems are maintained with MERV 13 filtration units. Carbon dioxide levels are monitored constantly in meeting rooms to prevent fatigue and ensure oxygen levels are healthy.

8.2 Office Desk Audits

Employees can request ergonomic desk adjustments (such as adding keyboard trays, footrests, or dual-monitor adjustment mounts) by filing a ticket on the admin portal.

9. Safety Audits & Compliance Reviews

9.1 Building Stability & Safety Checks

The company schedules structural stability checks, lift inspections, and emergency backup generator testing with licensed third-party engineering inspectors annually.

9.2 Electrical Load Management

Adding high-load heating or cooling devices (personal heaters, individual ovens) to standard workstation sockets is prohibited to prevent short circuits and fire hazards.

10. Retaliation Protections & Support Systems

10.1 Zero Retaliation Guarantee

TechV-Flash guarantees that no employee will suffer salary reductions, career blocks, negative performance ratings, or harassment for reporting safety issues or filing harassment complaints.

10.2 Ongoing Counseling Support

Complainants and witnesses involved in harassment inquiries are provided free legal and psychological advisory services by the EAP to support their personal recovery.
