

Performance Management Policy

Document Ref: HR-POL-011 | Effective: November 2026

TechV-Flash is committed to fostering a high-performance culture. This policy outlines the structured processes for goal setting, continuous feedback, annual appraisals, and performance improvement interventions.

1. Performance Review Cycle

1.1 Annual Appraisal Cycle

The standard performance appraisal cycle aligns with the financial year (April 1st to March 31st). Final evaluations occur in April, with corresponding salary increments or promotions taking effect in the May payroll.

1.2 Mid-Year Reviews

A formal mid-year review is conducted every October. This review does not impact immediate compensation but serves to course-correct objectives and provide documented developmental feedback.

2. Goal Setting & KPIs

2.1 SMART Objectives

All employees must define 3 to 5 primary Key Performance Indicators (KPIs) in consultation with their direct manager by April 30th. Goals must follow the SMART framework (Specific, Measurable, Achievable, Relevant, Time-bound).

2.2 Weightage Distribution

For evaluation purposes, Core Job Responsibilities hold a 70% weightage, Team Collaboration/Leadership holds 20%, and Individual Learning/Certifications hold a 10% weightage.

3. Rating Scale & Normalization

Performance is evaluated on a standardized 5-point rating scale. Department heads are responsible for normalizing ratings across teams to ensure fairness.

Rating	Descriptor	Implication
5	Outstanding	Significantly exceeds all expectations. Highest bonus eligibility. Fast-track promotion candidate.
4	Exceeds Expectations	Consistently delivers above targets. High bonus eligibility.
3	Meets Expectations	Solid performer; meets all core job requirements. Standard bonus payout.
2	Needs Improvement	Inconsistent performance. No bonus payout. May require training intervention.
1	Unsatisfactory	Fails to meet basic expectations. Placed on mandatory PIP.

4. Performance Improvement Plan (PIP)

Mandatory PIP Trigger: Employees receiving a Rating of 1 ("Unsatisfactory") during the annual appraisal, or consistently failing to meet targets for 2 consecutive quarters, will be placed on a Performance Improvement Plan (PIP).

PIP Duration & Outcome: A standard PIP lasts for 60 days. During this period, the employee will have bi-weekly check-ins with HR and their manager. If the specific PIP goals are not met by the end of the 60-day period, it will lead to immediate termination of employment.

5. Continuous Feedback & 1-on-1 Syncs

5.1 Weekly 1-on-1 Cadence

Managers are required to conduct weekly 1-on-1 feedback syncs with each direct report. These meetings are intended to track task progress, identify dependencies, and offer guidance.

5.2 Documenting Sync Outlines

A summary of discussions, including milestones met and pending action points, must be logged in the internal HR performance module on a monthly basis by the manager.

6. Promotion Recommendations

6.1 Nomination Eligibility

To be nominated for a promotion to the next career grade, employees must have spent a minimum of 18 months in their current role and achieved an average performance rating of 4.0 or above in the last two review cycles.

6.2 Review Panel Audit

All promotion recommendations are audited by the Promotion Review Committee (Dept HOD, HR Director, and CTO). The panel checks candidate competency logs and project impact metrics.

6.3 Table of Promotion & Nomination Slabs

Target Job Level	Minimum Tenure in Current Level	Average Rating Required	Promotion Window
L2 - L3 (Engineer to Senior)	18 Months	Rating of 4.0 or above	Annual cycle (April review only)
L4 - L5 (Lead to Manager)	24 Months	Rating of 4.2 or above	Annual cycle (April review only)
L6+ (Director & Executive Roles)	36 Months	Rating of 4.5 or above	Subject to Board approval

7. Rewards & Recognition Program

7.1 Monthly Spotlight Awards

Exceptional contributions that showcase TechV-Flash core values are recognized monthly. Nominations are submitted by team leads and reviewed by HR on the 25th of every month.

7.2 Spot Cash Awards

For emergency project deliveries or critical bug resolutions over weekends, managers can approve instant Spot Cash Awards to recognizing employees' dedication.

7.3 Table of Spotlight & Milestone Recognition Slabs

Award Category	Nomination Frequency	Cash Reward Amount	Non-Cash Recognition Benefits
Monthly Spotlight Award	Monthly (Max 2 per department)	5,000 INR	Digital certificate, company-wide Slack shout-out.
Spot Cash Award	Ad-hoc (Manager approved)	2,500 INR	Award badge in HR Portal.
Quarterly Champion Award	Quarterly (1 per business unit)	15,000 INR	Engraved trophy, dinner voucher.
Annual President's Award	Annually (Max 3 company-wide)	50,000 INR	President's club plaque, extra 2 days PTO.

8. Special Performance-Linked Bonuses

8.1 Retention Bonus Schemes

For key personnel managing core framework architecture, the company may issue retention bonuses linked to successful multi-year milestones. These bonuses are subject to clawback if the employee exits early.

8.2 Delivery Milestone Rewards

Engineering departments working on high-value client releases are eligible for project milestone payouts. These rewards are distributed equally among active project contributors.

8.3 Table of Performance-Linked Bonus Targets

Business Unit / Division	KPI Target Metric	Standard Payout Rate	Maximum Payout Cap
Software Engineering (Product)	Feature release delivery matching roadmap deadlines.	10% of monthly basic salary	15% of monthly basic
Client Operations & Delivery	Customer SLA breaches under 0.5% annually.	12% of monthly basic salary	18% of monthly basic
Infrastructure & Site Reliability	Platform uptime exceeding 99.99% per quarter.	15% of monthly basic salary	20% of monthly basic

9. 360-Degree Peer Feedback

9.1 Gathering Multi-Dimensional Input

During the annual review, employees select 3 peers from their projects to submit anonymous feedback. The feedback questionnaire is managed by HR and evaluates collaboration and communication.

9.2 Upward Feedback for Managers

Direct reports are required to submit anonymous evaluation reviews for their supervisors. These reviews help evaluate leadership behavior and identify training needs for management staff.

10. Performance Grievances & Appeal Process

10.1 Submitting a Rating Appeal

Employees who disagree with their annual appraisal rating can submit a formal Appeal Form to HR within 7 business days of receiving their scorecard. The appeal must contain objective proof of KPI completions.

10.2 Review Panel Mediation

HR will establish an Appeal Review Panel (comprising the HRBP, HOD, and an independent manager). The panel reviews the submissions and schedules a resolution meeting within 15 working days. The panel's rating choice is final.

11. Competency & Capability Mapping

11.1 Standard Competency Framework

Every engineering level has a defined set of tech skills and leadership behaviors. Appraisals verify if the employee's output matches their level's competency definitions.

11.2 Individual Development Plans (IDP)

Employees who do not show growth in their competency audits are assigned an IDP. The IDP outlines targeted courses, mentorship programs, and projects to close skill gaps within 90 days.
